Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Walsh s Business Arithmetic In this work the author has kept in mind the needs of boys and girls that have taken up a commercial course. The latter generally requires the completion of the arithmetical portion by the end of the first year of high school, and care has been taken to keep the problems within the capacity of pupils at this stage. Section I, Recording Business Transactions, presents briefly the clerical tasks likely to confront boys and girls upon their entrance into the business world; the calculations they are expected to make, the simple accounts they may be required to keep, the commoner forms they will use, etc. In Section II, Business Calculations, are given computations in percentage, trade discount, interest, and bank discount, made in the ways employed by business men. The arrangement that assigns Numbers and Processes to Section III does not mean that practice in these topics should be deferred until pupils have completed the two previous sections It is expected that the teacher will take from this portion of the book oral exercises for short daily drills, and abstract written ones weekly, for a longer period, to give facility and accuracy. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
