One of the most creative philosophers of the 20th century, Rudolf Carnap presented a series of science lectures at the University of California in 1958. Stimulating and thought-provoking, the text will be of interest to philosophers, scientists and anyone interested in logical analysis of the concepts, statements and theories of science. Its clear and readable style help make it the best book available for the intelligent reader who wants to gain some insight into the nature of contemporary philosophy of science. Choice.
