

Cologne Atherosclerosis Conference No. 2: Lipids: 2nd Cologne Atherosclerosis Conference, Cologne, May 24, 1984

By Parnham

Birkhauser. Paperback. Book Condition: New. Paperback. 248 pages. Dimensions: 9.6in. x 6.7in. x 0.6in. This book contains the proceedings of the 2nd Cologne Atherosclerosis Conference (CAC) which was devoted to lipids, in particular lipoproteins. The object of the conference series, organised by A. Nattermann and Cie. GmbH, Cologne, is to provide an overview of various fields either directly related to or associated with the process of atherosclerosis. Having considered the associated field of inflammation in the first conference, the 2nd CAC dealt with a subject intimately related to the atherosclerotic process per se. The recent demonstration in an extensive clinical study of a close link between high plasma cholesterol and coronary mortality has awakened both the medical and the lay communities to the importance of research into lipoprotein biochemistry and physiology. This can only be good news since more intensive research into lipoprotein functions is vital for future therapy of atherosclerosis and other lipid disorders. The status of research on lipoproteins is reflected in the contributions to this book, which are of an interdisciplinary nature, including both reviews and shorter research reports by acknowledged experts in the field. Special thanks are due to Margret Leffin for her organisational and secretarial...
