Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 235 x 190 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.NOVEMBER 13, 2015 - \* The latest advances in physics and cosmology are important and exciting. This book provides this information for both the general reader and the science student. It also serves as a reference book. Information is indexed and easily found and used. The topics are explained with emphasis on qualitative and physical descriptions so as to be easily understood by all levels of readers. The early sections are especially designed for those who do not have an extensive background in the subjects. Qualitative descriptions are in many instances more detailed than elsewhere. Mathematical information is included as an aid to understanding and a bridge for further study but can easily be skipped without concern. The detailed descriptive material will facilitate the transition for those who wish to progress to more detailed mathematics. Content includes: \*A timeline of key happenings in the history of our Universe including the birth of the Universe 13.8 billion years ago, first multi-cell life on Earth 4 billion years ago, Einstein s Special and General Theories of Relativity 1905-1915, and the end of the Universe a few hundred billion years or so from now. \*The values of important constants such as the speed of light and the mass of the sun to many significant digits. \*Basic science information (a quick course in general physics). \*Information about every tiny unseen particle that makes up the atoms of our planet. \*Information about the Higgs Boson that culminated in the experimental detection of the Higgs Boson at the high-energy collider at CERN, Switzerland in July 2012. \*Gravity Waves \* Information about empty space before Big Bang, at the Big Bang, during...
